ORRO®
Cyber Security

Vulnerability Management

Orro can pinpoint the vulnerabilities that pose the most significant risk to your critical digital services by combining attack surface visibility with attack vector analytics.

Securely Connected Everything™

Orro's vulnerability management service is the complete solution for identifying and controlling security weaknesses before they become exploited.

New vulnerabilities in applications and operating systems are released daily, exposing businesses to a constant stream of cyber-attacks that threaten information systems. With the sheer volume of daily attacks, organisations must implement an effective vulnerability management solution to safeguard against threats.

Our solution combines leading technology with extensive expertise to proactively identify and provide actionable intelligence reports on vulnerabilities to reduce your organisation's attack surface and safeguard against cyber threats.

Key benefits of vulnerability management.

- ✓ Strengthens security baseline with better management of vulnerabilities across your business-critical assets.

- ✓ Complete visibility and reporting that delivers real-time analysis into your most critical vulnerabilities.

- ✓ Improved operational efficiencies for managing increases in scale and environment complexity.

- ✓ A long-term solution for the future that is equipped to handle changes in your environment, and new and ongoing regulatory compliance requirements.

Orro®

How we help you.

Remediation

Leveraging regular threat intelligence, our team implements practical remediation judgment to close exposure gaps and improve your organisation's network security posture.

Identification

Our platform performs client-defined, regular, and custom scanning cycles for effective asset discovery and security risk identification. This continuous visibility ensures the implementation of proactive measures to prevent breaches.

Reporting

Receive regular intelligence reports that identify any threats or exposure gaps. These also detail specific recommendations for improved vulnerability management in the future.

Evaluation

Our team of specialists provide daily management of your organisation's scanning infrastructure and handle your daily scan cycle requirements.

Revolutionary thinking, *evolutionary expertise.*

We are a multi-disciplinary team of innovative thinkers who use a no-nonsense approach to always find the right network security solution for your business, which means playing chess, not checkers to achieve the right outcomes.

Technology & People

Our strong customer relationships stem from a commitment to always advise on fit for purpose technology, and doing right by our customers.

Accurate & Proactive

We deliver real-time alerts and reports to help you achieve proactive transformation and monitoring to mitigate issues in alignment with attack surface management to maintain business-as-usual across your digital environment.

Strategic Partnerships

Through our strong business and vendor partnerships, we have the breadth of knowledge and expertise to help you deal with any scenario as soon as it happens. We provide you with the expertise and flexibility to get the results you need through a strategic approach.

Mitigate risk with intelligently secure services.

To learn more about our vulnerability management services or discuss your technology and business needs, reach out to the Orro team today.

The future feels like this.®

We're Australia's leading platform-enabled, secure network and digital infrastructure provider. We're trusted by our clients to deliver the future now, transforming business and bringing people closer together.
