Next-Generation Wireless

Happy Wi-Fi, Happy Li-Fi

Securely Connected Everything™

Introducing
Next-Generation Wireless

Today's interconnected era has no room for slow Wi-Fi and unreliable LAN connections. But traditional managed services are struggling to support the growing number of connected devices, geographically dispersed teams, and the need for uninterrupted user experiences.

Next-Generation Wireless emerges as the ultimate remedy to these challenges. It fuses our cutting-edge One Touch Control AIOps platform with expertise from our network engineers and the AI-native wireless access technology of Juniper Mist. This synergy sets a new benchmark in enterprise connectivity. We don't just address the immediate challenges; we future proof your business.

Why Next-Generation Wireless Should Be Part of Your Future

Adaptability
Be ready for anything with a network that adapts in real-time to changes in conditions, user demands, and business objectives.

Efficiency
Streamline your operations with automated network monitoring, configuration, and policy enforcement, all accessible through one intuitive dashboard.

Scalability
Accommodate new users, apps, and devices as your business grows without the need for costly overhauls.

Business continuity
Keep your business running smoothly, no matter what comes your way, with a self-optimising, self-healing network.

Security
Protect your network with AI-enhanced security measures that prevent, detect, and neutralise threats in real-time, ensuring your data remains safe and sound.

Cost-effectiveness
Enjoy significant savings on hardware, software, and licensing fees, thanks to our streamlined and error-proof network configurations.

Consistency
Ensure every user enjoys a seamless experience across any app or device, with AI capabilities that proactively solve underlying problems.

Expertise
Rely on the wisdom and skills of our network engineers, who are on standby 24x7 to support you in any way you need.

Key Capabilities to Keep You Connected

Technology

Unified, Real-Time Visibility

Get a complete view of your network from a single dashboard enriched with live data from your devices, cloud apps, and user interactions.

Anomaly Detection & Automated Remediation

Our intelligent system notices network irregularities, like sudden traffic spikes, and automatically takes corrective action.

Troubleshooting & Root Cause Analysis

AI-assisted troubleshooting ensures underlying problems in your network are automatically spotted and solved before they spiral.

Centralised Policy Creation & Enforcement

Create and enforce access policies for specific roles, devices, and users. These can be modified in real-time to keep up with your security and application needs.

Threat Detection & Response

Strengthen your security defences with a mix of AI capabilities, threat intelligence, and analytics, designed to detect, analyse, and remove threats swiftly.

Open APIs & Integrations

Enhance network functions with open APIs and third-party tool integrations for monitoring, alert management, remediation, and more.

Managed & Professional Services

24x7 Monitoring & Support

Our experts keep an eye on your network around the clock, always on standby to tackle any issues and answer your questions, no matter when.

Maintenance, Updates & Continuous Optimisation

We ensure your network is always performing at its best by regularly rolling out software and firmware updates and continuously optimising your infrastructure.

Assessment & Design

We take a deep dive into your current network setup to uncover gaps and opportunities, then design a blueprint that's just right for you.

Site Surveys

We find the perfect spots for your access points before setting up your network, then return to check signal strength and coverage post-deployment.

Deployment & Integration

We install and integrate all essential hardware and software into your existing infrastructure, ensuring minimal disruption in the process.

Regular Reviews & Resources

We review your network performance every quarter to ensure your needs are being met, while giving you access to a wealth of online resources for continuous learning.

The future feels like this.®

We are a multi-disciplinary technology powerhouse, committed to keeping our customers secure and connected. We partner with our customers to boldly embrace the challenges of tomorrow, ignite innovation, and facilitate growth.

> Trusted Partner

Our customers don't just trust us to keep them productive and secure today, but to prepare them for what's next, to grow with them over time, and to collaboratively shape their future.

> Strategic Advisor

With deep expertise in multiple facets of technology, our customers rely on us to provide them with strategic advice and guidance, helping them make smart moves towards a secure future.

> Solution Provider

Our versatile suite of skills enables us to tackle complex challenges for our customers, providing them with complete business solutions that draw from our vast pool of expertise and resources.

Experience wireless connectivity at its best. Because Happy Wi-Fi means Happy Li-Fi.

Discover how we can help your business and your people with Securely Connected Everything™.
