# ORRO®

# Securely Connected Everything™

# Sophisticated technology made powerfully simple

We stand at the forefront of Australian technology, transforming the connection between businesses and people. As your trusted technology partner and strategic advisor, our deep technical expertise will help you make smart moves towards a secure future. Our customers don't just trust us to keep them productive and secure today, but to prepare them for what's next.

## Cyber Security

We have redefined the traditional perimeter-based security methodologies by moving towards a more holistic, risk-based approach that includes threat intelligence, user behaviour analytics, and AI/ML-based technologies.

## Cloud

We empower our customers by maximising the potential of cloud computing through cutting-edge solutions like hybrid and multi-cloud management, serverless computing, containerisation, and secure end-user computing.

## Collaboration

Unified Communications has evolved from chat, voice and video conferencing to a full suite of integrated applications that enable remote work, project management and team collaboration to improve productivity and streamline workflows.

## Network

Our secure IT & OT network solutions are designed and built to keep our customers' businesses, their people and their infrastructure, connected and protected at all times, delivering superior visibility, efficiency and control.

# Orro® National Cyber Defence Centre

With Security Operations Centre (SOC) Analysts working alongside Pen Testers, Incident Responders, Security Consultants and Architects, we provide a more holistic approach to securing your business.

- **80+ cyber security experts**
- **20+ years' experience**
- **Australia & UK SOC facilities**
- **24/7 monitoring and response**
- **Follow the sun capabilities**

# Secure Client to Cloud

Orro® enterprise technology solutions are delivered via our comprehensive Secure Client to Cloud technology framework.

Securing everything from the endpoint device, through to cloud services, this approach integrates services spanning networking, cloud, cyber security and collaboration to deliver robust security and network efficiency tailored to modern enterprises.

Protected by our comprehensive cyber security services and underpinned by our One Touch Control AI-optimised management platform, our Secure Client to Cloud solutions scale to keep organisations of any size connected and protected.

Observability — Management Layer

## Client-centric security
Every device and user are a potential gateway for breach. We deploy layered defences at the client level, ensuring every point of entry is vetted and secure.

## Agile networking with SD-WAN
Leveraging SD-WAN to optimise network connectivity, we dynamically route traffic over the most efficient path, ensuring consistent and reliable secure access to cloud services.

## Flexible protection with SASE
SASE ensures security is ever-present, regardless of access source. By embedding security, protection is adaptive, scalable and immediate, irrespective of the entry point.

## Zero trust always with ZTNA
Tust is earned rather than given by default. Every access request undergoes rigorous validation, ensuring only users with the right permissions and devices gain access.

## Seamless oversight and governance
Our overarching view of network performance and security posture allows for real-time monitoring, threat detection, policy enforcement and rapid incident response.

# The future feels like this.®

We are a multi-disciplinary technology powerhouse, committed to keeping our customers secure and connected. We partner with our customers to boldly embrace the challenges of tomorrow, ignite innovation, and facilitate growth.

## Trusted Partner

Our customers don't just trust us to keep them productive and secure today, but to prepare them for what's next, to grow with them over time and to collaboratively shape their future.

## Strategic Advisor

With deep expertise in multiple facets of technology, our customers rely on us to provide them with strategic advice and guidance, helping them make smart moves towards a secure future.

## Solution Provider

Our versatile suite of skills enables us to tackle complex challenges for our customers, providing them with complete business solutions that draw from our vast pool of expertise and resources.

# Stay connected and protected with Orro®.

Discover how we can help your business and your people with Securely Connected Everything™.
